(54) Title: A METHOD AND A SYSTEM FOR SELECTING NON-REAL-TIME USERS TO PERFORM CELL RESELECTION

(57) Abstract: The invention relates to a method for traffic management in a radio system, and a radio system. The method comprises: monitoring (502) at least one cell load parameter of non-real-time users in a radio cell; triggering (504) a cell reselection process in the radio cell on the basis of a cell load parameter exceeding a pre-set cell load threshold; selecting (506), based on at least one cell load parameter, the non-real-time users to perform cell reselection; triggering (508) the selected non-real-time users to perform cell reselection.
